## Lita Ford, The Ripper

Hey!

Like a shadow in the night Molested by his sight He's come to get you

Sharper than cold steel He's gonna show you how it feels Ain't that a sight Nothin' you can do

You were so special that he drug you straight to hell Like all the other bad girls He'll rip your heart, he won't let go He wants your soul to keep,

Spreading his disease He'll bring you to your knees Destroys all he sees, He's the Ripper

Terror in the streets Enough to make you scream He's all you'll ever need, He's the Ripper

Standing face to face I get a little taste of his venom I feel it in my veins I cannot break the chains I'm in heaven

I was so special that he drug me straight to hell Like all the other bad girls He'll rip my heart, he won't let go He wants my soul to keep,

Spreading his disease He'll bring you to your knees Destroys all he sees, He's the Ripper

Terror in the streets Enough to make you scream He's all you'll ever need, The Ripper

Now he's taken me He wants me for his queen For all eternity, He's the Ripper
