

# Little Mix, Between Us

When the curtains close  
And all of the lights go down  
Safe to say 'I'll stay'  
I will always stick around  
And I will fix your crown  
And if you're knocked  
I'm your rock  
I won't stop, you will never be  
In doubt /2x

Like, damn, we got history  
Shared every misery  
Lived every victory  
Yeah, we got synergy  
If they hurt you, they hurting me  
That's just the way it be  
We walked though the fire  
And as the flames got higher  
It made us survivors  
It made us fighters, fighters

So, here's my vow  
Starting from here and now  
Nothing comes between us /2x  
I swear that we won't lose this thing we found  
Cause love will never leave us  
Nothing comes  
Between us /2x

Us /6x

Remember the day when we finally found ur wings  
It changed our lives  
Gave us power to do anything  
Nd any time they break is down  
We bpounce back  
Every track  
Had your back  
So you will never be in doubt

Damn, we got history  
In all these sweet melodies  
ived every victory  
We got synergy  
If they hurt you, they hurtin' me  
that's just the way it be  
The way it be  
We walked though the fire  
And as the flames got higher  
it made us survivors,  
i made us fighters, fighters

So, here's my vow  
Starting from here and now  
Nothing comes between us /2x  
I swear that we won't lose this thing we found  
Cause love will never leave us  
Nothing comes  
Between us /2x

Us /6x
