

Little Mix, Nothing Feels Like You

[Jesy]

I could have all the money.
All the fancy treasures in the world
25 Vegas just to hold the diamonds and my pearls.

[Jade]

But all of that's a fantasy.
Nothing like I wanna be.
Baby you and me that's real.
(yeaah)
Something like a masterpiece.
We be up in galleries.
You and I, that's real.

[All]

If I had everything, it wouldn't mean a thing.
Cause nothing feels like, nothing feels like you.
No matter what they say can't take my love away.
Cause nothing feels like, nothing feels like you.

Baby even when we're miles apart.
You'll always stay inside my heart
Let me tell ya no one else will do.
Cause baby nothing feels like you.

[Leigh-Anne]

Boys will be boys
I got plenty knocking at my door.
(knocking at my door, knock-knock-knocking at my door)
But none of them compare baby,
you're the one I'm waiting for.

[Perrie]

(Whoooa, yeaah)
Cause I'm living in a fantasy
every time you're here with me.
Kiss me if it's real.

[Jade]

yeaah!

[Perrie]

Baby you and me for keeps.
You bring out the best in me.
Now you know that's real.

[All]

If I had everything, it wouldn't mean a thing.
Cause nothing feels like, nothing feels like you.
No matter what they say can't take my love away.
Cause nothing feels like, nothing feels like you.

Baby even when we're miles apart.
You'll always stay inside my heart.
Let me tell ya no one else will do.
Cause baby nothing feels like you.

(Nothing) No nothing like ya.
(Nothing) No nothing like.
(Nothing) No nothing like ya.
(Nothing) No nothing like.

[Leigh-Anne]

If I had everything it wouldn't mean a thing.

Cause nothing feels like, nothing feels like you.

[Perrie]

No matter what they say can't take my love away.
Cause nothing feels like, nothing feels like you.

[All]

Baby even when we're miles apart.
You'll always stay inside my heart.
Let me tell ya no one else will do.
Cause baby nothing feels like you.

[All]

And when you're gone, we could be miles apart.
I'll feel the way I did from start.
I told ya nothing feels like, nothing feels like you.

Baby when everything's said and done.
I hope you know that you're the only one.
I told ya nothing feels like, nothing feels like you.

No, nothing like you.
No, nothing like you.
No, nothing like.
