

Little Mix, These Four Walls

[Jade]

I feel so numb
Staring at the shower wall
It's begun the feeling that the end has come
And now the water's cold
I tried to eat today
But the lump in my throat got in the way

[Jesy]

In this time I've lost all sense of pride
I've called a hundred times
If I hear your voice I'll be fine
And I, I can't come alive
I want the room to take me under
'Cause I can't help but wonder
What if I had one more night for goodbye?
But you're not here to turn the lights off I can't sleep
These four walls and me...

[Leigh]

I lay in bed
Can't seem to leave your side
Your pillow's wet from all these tears I've cried
I won't say goodbye
I tried to smile today
Then I realised there's no point anyway

[Perrie]

In this time I've lost all sense of pride
I've called a thousand times
If I hear your voice I'll be fine
And I, I can't come alive
I want the room to take me under
'Cause I can't help but wonder
What if I had one more night for goodbye?
If you're not here to turn the lights off I can't sleep
These four walls and me...

[All]

Oh, oh
And I, I can't come alive
I want the room to take me under
'Cause I can't help but wonder
What if I had one more night for goodbye?
If you're not here to turn the lights off I can't sleep

[Jesy]

These four walls and me...
