

# Little Mix, Towers

Leigh-Anne:

You turn, and I learn that the wall comes falling down  
Not a word, only heard what my friends could tell me now  
I feel love when I see your face  
But all these scars, I can't replace  
Shock me hard, hit me hard, and I don't know what you say

Perrie:

When you knock on my door  
And tell me you don't wanna fight  
Oh, baby I'm sure that I'm not gonna fall this time

Jesy:

You never brought me flowers  
Never held me in my darkest hours  
And you left it so late that my heart feels nothing nothing  
And towers  
Once we were made like towers  
Everything could've been ours  
But you left it too late now my heart feels nothing nothing at all

Jade:

It's a shame  
You're to blame  
'Cause once you owned my heart  
I remember feeling so high  
But I'm right back at the start  
I still feel love when I see your face  
But all these tears I can't erase  
Sorry heart, I'm sorry heart  
But we'll have to start again

Perrie:

So don't knock on my door and tell me you don't wanna fight  
'Cause I heard it before  
And I'm not gonna let this time  
Not going back this time

Jade:

You never brought me flowers  
Never held me in my darkest hours  
And you left it so late that my heart feels nothing nothing  
And towers  
Once we were made like towers  
Everything could've been ours  
But you left it too late now my heart feels nothing nothing at all

Jade:

Nothing at all

Leigh-Anne:

When you're close I wanna change my mind  
But I remember you and what we're like  
I don't wanna let you waste my time

Jesy:

And you never brought me flowers  
Never held me in my darkest hours  
And you left it so late that my heart feels nothing nothing at all

Perrie:

Once we were made like towers  
Everything could've been ours  
But you left it too late now my heart feels nothing nothing at all

Little mix:  
Nothing at all

Perrie:  
Nothing at all

Jesy:  
Once we were built like towers  
Nothing at all  
We were built like towers  
Now my heart feels nothing at all
