

Little Simz, Woman (ft. Cleo Sol)

Naija woman
Got the melanin dripping
London
City girl living
In the back looking like fire chilli pepper

Yoruba girl tougher than imperial leather
He was getting bitter
While she was getting better
Diamonds are forever
Miss Sierra Leone looking like a gem
Works hard in the week
Party on the weekend

(Beautiful beloved sisters
Stand together with your sisters
Don't lose heart
Keep believing
That everything within us is lit up fiercely
Stand together with your sisters
Don't lose heart
Change the world
Beautiful beloved sisters
Light up
It's our time)
