

LIV, Heaven

I don't need no sympathy
I don't need you to dance with me
I'll just watch you from the balcony
And I'll smoke one last cigarette before I leave

I know it's hell
I know it's helpless
But it feels like heaven is waiting for us
I know it's hard to feel so heartless
But I know that heaven is waiting for us

Walking barefoot in the rain
Another night
Another face without a name
Baby I got no time no I
Got no time to waste
I got one last t stop to
Make and it's 100 miles away

I know it's hell
I know it's helpless
But it feels like heaven is waiting for us
I know it's hard to feel so heartless
But I know that heaven is waiting for us
