

Lizz Wright, Song For Mia

I went down to the water , all night long
I'm putting my feet in ,all night long
And I went down to the water , all night long
And I'm putting my dreams in , all night long
And what you think of me ,I can't say
I'll take these bad dreams and I'll drove along the way
I'm at the shore now , the shadows at my back
I can feel the waves coming there , heavy and black
But I can't turn away now 'cause I
They're singin' a song
And I , I'm in harmony
I'm singing along
And what you did to me I , I can't take no more
I'll take these bad dreams and I'll lay them at the shore
The end of the ocean I'll never see
I stare out in the distance and it's looking back at me
And I'll look down to the water all night long
And I'll put my feet in , all night long
And I'll put my dreams in , all night long
And I'll put my tears in , all night long
I went down to the water
