

# Local H, No More

You took mine away from me  
You made me say please  
You gave me those feelings  
That made me get down on my knees  
No no no  
No more (x4)  
The way of today  
The way of today  
You make me feel bad

And you take my defenses away  
Nah, hell no  
No more (x4)  
You don't want my love  
You don't want my heart  
You want my respect,  
But that's not what you'll get when you tear me apart  
No more (x20)
