

LP, The One That You Love

Now when you've got what you wanted
Now that you got what you need
Gir, if we're gonna be honest
Honestly, what left for me?

Cause all i got
Is close but not
And all i want is to know just how

Try to be the fire for you
Try be the the sun
Try be your home
And place that you come to
Babe I took the whole world, put it in your hands
I'm really trying hard,
But i don't understand

Tell me
How to be The One That You Love?
How to be The One That You Love?

Don't treat my love like a habit
Why don't you show me a way
I'd give it to you, you can have it
I just wish i knew what to say

Cause all i got
Is close but not
And all i want is to know just how

Try to be the fire for you
Try be the the sun
Try be your home
And place that you come to
Babe I took the whole world, put it in your hands
I'm really trying hard,
But i don't understand

Tell me
How to be The One That You Love?
How to be The One That You Love?
How to be
How to be
How to be
How to be

Try to be the fire for you
Try be the the sun
Try be your home
And place that you come to
Babe I took the whole world, put it in your hands
I'm really trying hard,
But i don't understand

How to be The One
How to be The One That You Love?
How to be The One
How to be The One That You Love?
How to be The One
How to be The One That You Love?
How to be The One
How to be The One That You Love?
