

# Lucie Jones, Never Give Up On You

Tell me you secrets  
I'll keep them safe  
No sign of weakness  
It's a sign of faith  
We'll stand tall  
So you don't fall

You're not defeated  
You're in repair  
Don't have to call me  
I'll always be there  
We'll stand tall  
So you don't fall

If you could see how far you've walked  
You would see that's all not lost

I will never give up on you  
I 'don't care what I've got to lose  
Just give me your hand and hold on  
Together we'll dance through this storm  
I will never give up on you  
You're the one that I'm running to  
Just give me your hand and hold on  
Together we'll dance through this storm

Under the surface  
I see you glow  
I'm right beside you  
You're never alone  
Don't let go  
When you're so close

If you could see how far you've walked  
You would see that's all not lost

I will never give up on you  
I 'don't care what I've got to lose  
Just give me your hand and hold on  
Together we'll dance through this storm  
I will never give up on you  
You're the one that I'm running to  
Just give me your hand and hold on  
Together we'll dance through this storm

This madness  
We're running through  
This magic  
It's inside you  
It's madness / 2x

If you could see how far you've walked  
You would see that's all not lost

I will never give up on you  
I 'don't care what I've got to lose  
Just give me your hand and hold on  
Together we'll dance through this storm  
I will never give up on you  
You're the one that I'm running to  
Just give me your hand and hold on  
Together we'll dance through this storm
