

# Luna, Blind

Look closely through my eyes  
No senses inside  
Bring it on the sound  
Shadow left behind  
Don't you know that bat?

Who Wander by the night  
Twilight keep them up  
Held the prison tight  
Under .. you hunt  
Do you look alive?

Light  
Dim the light  
I don't wanna see no colors  
Stay blind  
Light  
Dim the light  
All the blackses are in flames  
Sorrow  
There' resemble us  
Just us  
Light  
Dim the light  
Now my heart is beating harder then the fright  
Light  
Dim the light  
all my cloudy faces  
disappear now
