

# LVMA BLACK (Magdalena Mielcarz), ICU

You look at me  
Like I'm not staring back  
It doesn't even phase you

so hard to get  
from here to you  
typical behavior

your signals ain't adding up  
your watch me get real high  
can't open up my eyes  
why does it hurt me  
your signals ain;t adding up  
why do you feed me lies  
a thousand times  
and I take in a bit

my heart is barely beating  
I see you  
I hate myself whenever  
I see you  
so many blurry faces  
I see you  
but I can't help myself when  
I see you

a bitter pill  
I wanna take it still  
damn, you're so contagious  
they say time will heal  
so y watch the wheel  
but nothing ever changes

your signals ain't adding up  
your watch me get real high  
can't open up my eyes  
why does it hurt me  
your signals ain;t adding up  
why do you feed me lies  
a thousand times  
and I CAN'T TAKE IT

my heart is barely beating  
I see you  
I hate myself whenever  
I see you  
so many blurry faces  
I see you  
but I can't help myself when  
I see you

my eyes are open  
I keep on hoping  
that I'll get sober  
and walk a straight line again  
my eyes are open  
I keep on hoping  
that I'll get sober  
and walk a straight line

my heart is barely beating  
I see you  
I hate myself whenever  
I see you

so many blurry faces  
I see you  
but I can't help myself when  
I see you
