

Mad Hatter, Face the Truth

Sleeping awake
Life's a circle of pain
Can not feel joy
Every day's the same

Night after night
My life stuck in reverse
Face after face I forget them fast

You only live ones
Remember each day
Light up the heart deep inside

I will face the truth
Life is not forever
Face the truth right now

I will face the truth
Live now or never
Face the truth right now
And I know the sun will rise

It's hard to keep up
With the pace in this world
It's hard to just
Keep on moving on

Day after day
My life stuck in reverse
Trace after trace
I get lost all time

You only live ones
Remember each day
Light up the heart deep inside

I will face the truth
Life is not forever
Face the truth right now

I will face the truth
Live now or never
Face the truth right now
And I know the sun will rise
