

Madison Beer, Room For You (piosenka z filmu C

Big love in a small house
Blue skies never run out
Honey, know that I always
Got room for you, got room for you
More time that we both need
Years pass and I won't leave
Honey, know that I always
Got room for you, got room for you

I don't wanna know the future, don't need a crystal ball
I'm just chasin' every bit of it, don't let it halt
Just runnin' through some life to see the world in bloom
She don't wanna be just a moment or just one glance
She don't wanna be the only one in this dance
Says all she needs, is a little room

We had good time turn bad
Things go from perfect to sad
Don't have the life that we planned
It's not the world we knew
\but we've got

Big love in a small house
Blue skies never run out
Honey, know that I always
Got room for you, got room for you
More time that we both need
Years pass and I won't leave
Honey, know that I always
Got room for you, got room for you
