

# Madonna, History

(Repeat history, just repeat history,...)

I looked all around the world  
Nobody has it better than we do  
Uh huh  
One thing I don't understand  
Why don't we help more people 'cause we can  
Uh huh

(All around the world, all around the world,...)

Why are we separated  
Defined by our greed and hatred  
Why aren't we all united  
I'm so sick and tired of fighting  
Why aren't we all together  
Let's end this fight forever  
Why are we still divided  
I'm so sick and tired of fighting

How many tragedies will we see before we come together  
Uh huh  
It's easy to forget we have a power to make things better  
Uh huh

I have a dream  
But dreams are not for free  
We all need to change  
Or just repeat history (just repeat history, just repeat history,...)

(All around the world, all around the world,...)

Why are we separated  
Defined by our greed and hatred  
Why aren't we all united  
I'm so sick and tired of fighting  
Why aren't we all together  
Let's end this fight forever  
Why are we still divided  
I'm so sick and tired of fighting

(Just repeat history, just repeat history,...)
