

# Madonna, Hold Tigh

A million miles later  
We walk through the valley of the darkest night  
We made it through the fireside  
And we're bruised, but our hearts will guide us  
Together  
I know our love's gonna last for ever  
You're going to be alright  
Tonight  
We live with no limits  
Dance in the middle of the freezing rain  
With you and I in it  
We'll survive the eye of a hurricane  
Us together  
We gotta make this better  
We're gonna be alright  
Tonight

Hold  
Tight  
As long as you're by my side  
Hold  
Tight  
Everything's gonna be alright

A million miles later  
We walk through the valley of the darkest night  
We made it through the fireside  
And we're bruised, but our hearts will guide us  
Together  
I know our love's gonna last for ever  
You're going to be alright  
Tonight

Hold  
Tight  
As long as you're by my side  
Hold  
Tight  
Everything's gonna be alright

Only love, only love  
Tonight!

I don't wanna breathe if you're not breathing  
I don't want to hear if your heart's not beating  
If you hurt than I want to be the one that's bleeding
