

# Margaret, Tell Me How Are Ya

Ever since I was a girl  
I've had a Strength, a little perk  
(It) always worked  
Some just can't lived without  
See all the boys, they're into girl  
N?kinda silly in a way  
Catch em, make em shake  
Some just can't lived without  
Like a bee that take to honey so sweet  
U loose control,  
Then you're hooked, Got to have me some moore  
Before you pass me for a bunny  
Listen close so that you hear the magic words

Tell me how are ya?, I really wanna know ya?  
Just tell me how you ah are, I wanna know now  
I'm like an artist ,Don't know what just hit ya  
I'm there and then i'm Ta ta ?? i gotta go now  
Caught in the game  
Can't keep away  
Ready for the ride  
A wink of the eye, shake my behind  
Do it Elvis Style uh huh uh huh  
Love to play, love the game

Don't be a drag,  
Don't be a bore  
Don't have a heart attack for sure  
Why be so serious  
Now loose the thought of us  
(I'm) Smoke and mirrors Grand De Lux  
I'm Casanova on the rocks  
What yo see is what you get and then you won't  
Before yo fall ? just don't  
Like a bee that take to honey so sweet  
U loose control,  
Then you're hooked, Got to have me some moore  
Before you pass me for a bunny  
Listen close so that you hear the magic words

Tell me how are ya?, I really wanna know ya?  
Just tell me how you ah are, I wanna know now  
I'm like an artist ,Don't know what just hit ya

Caught in the game  
Can't keep away  
Ready for the ride  
A wink of the eye, shake my behind  
Do it Elvis Style uh huh uh huh  
Love to play, love the game

Now you know the deal  
Now you have been told  
[Set the radar to check down low]  
Casue when i go for the kill  
You won't know it until  
You're on the run

Tell me how are ya?, I really wanna know ya?  
Just tell me how you ah are, I wanna know now  
I'm like an artist ,Don't know what just hit ya  
I'm there and then i'm Ta ta ?? i gotta go now

Can't keep away
