Maria Sadowska, Front line

Be who you are
Make so sense
To fall the stars
Deliver to other people?s lives
Find your own way
Only you have your serene will
You can turn and laugh alright

Up and down
High and low
Left and right you go
Up and down
Black and white
Day by day day by night

Cause baby we are just who we are
Not everyone wants to be a star
Not everyone wants to stay on the front line /x2

Be flexible
Cause your grade reflex you
Undiscoverd try to find
Something more
Hear your mind
Look while then
Imagine something more

Up and down
High and low
Left and right you go
Up and down
Black and white
Day by day day by night

Cause baby we are just who we are
Not everyone wants to be a star
Not everyone wants to stay on the front line /x4
