

Mariah Carey, Khalid, Kirk Franklin, Fall in Love at Christmas

The days are cold here amidst the drifts of snow
Just a metaphor of us so many Christmases ago
We had a love so deep just like the joy the season brings
So let's fall in love again this Christmas night

And every Christmas I will be there
This time of year, we're both aware
We gotta fall in love again at Christmas time
And all the angels in the sky
Shine down on us as we roll by
We gotta fall in love again at Christmas time

And the candles glow
I'm awake but no one knows
Just waiting patiently to hear the sleigh bells jingle,
There they go
And while the Northern Star
Lights the way I dream of us
So let's fall in love again this Christmas night

And every Christmas I'll be there
This time of year, we're both aware
We gotta fall in love again at Christmas time
And all the angels in the sky
Shine down on us as we roll by
We gotta fall in love again at Christmas time

Fall in love with the feeling
Fall in love trust believe we can
Fall in love again at Christmas time
Help me sing it again!
Fall in love tis the season
Don't forget there's a reason
We gotta fall in love again at Christmas time

And every Christmas I'll be there
This time of year, we're both aware
We gotta fall in love again at Christmas time
And all the angels in the sky
Shine down on us as we roll by
We gotta fall in love again at Christmas time

I say we pray
Pray that we will find love for all mankind
This Christmas time

We all need a Grace
To heal our troubled minds
It's not tyhat hard to find
This Christmas time

Everine together we pray
Pray that we will find love for all mankind
This Christmas time

We all need a
Grace upon /3x
To heal our troubled minds
It's not tyhat hard to find
This Christmas time
