Marion Band\$, Hold Up

[Marion Band\$]

Everyday I think lucrative

It always got to be progress

If it ain't about that money then it ain't a part of my process

Meeting with the bosses over lobster tails

Strategizing our next move

Conclusion is prevail

Bitches that hold yo shit up, bitches that fuck yo shit up

She call and she wanna lick up

But I'm busy hittin this liquor

Bitch I'm chasing money

You dont deserve a description

It take some sacrifices

To get in this position

When my well was dry, I was still making my wishes

I was riding around, I was risking it

But if I didn't do it I wouldn't get this shit

Up late nights I'm an owl too

Theres a few things that I value

Money, trust, respect, loyalty and my crew

[Hook]

Politicking with my niggas about this money bitch hold up

I had to drop my bitch, cause I don't need no hold ups

Walk right in VIP, we don't do no hold ups

Get too close, I got some killers with me that'll tell you

Hold up, hold up

(tell ya)

Hold up, hold up

(tell ya)

Hold up, hold up

You say you want this money then nigga what's the hold up?

If you really 'bout this paper, then what's the (Hold up?)

[Nipsey Hu\$\$le]

Nip Hussle the Great back

Came up, you can't hate that

Self made you can't take that

Yeah, self made you can't make that

Some say I need a record deal, I need a cosign, I need a Dre track

But all the time I had a mean flow, I had a cold grind and that's a great match

(Hold Up)

Payback, fuck hoes and I make racks

And my pockets gon' stay fat

Cause I merk beats and I slay tracks

(Hold Up)

Payback, wrist rocky like A\$AP

Stay strapped like I'm Arab

And in a world of lies I still state facts

Lame-ass, hatin' niggas take flame baths

All you really doin' when you running your mouth is telling me where to aim at (GUNCOCK)

Duck nigga, fuck-bitches and fuck-niggas

If you ain't talkin bread then I don't fuck with you

(GUNSHOT)

HUSSLE

Fifteen, Uh

They told me I had it and now I am relapsing

And how could you " X" me out? I am not Malcolm

And how could you doubt me you heard my first album And who had the nerve to think I was done with I left the game graciously for you to run with Like that of a blueprint, go on and front then Time that you had, and this what you come with? Hold up If you want it to work out, exercise it nigga And if you want to see it, visualize it That was me that we been discussing And it was the thought, they thought I was bluffing I know that they waiting to see what I come with I told you my best and I feel my toughness Hold up Nevertheless I'm who they fuck with I'm the go-to guy you niggas go too shy No Kanyes or Commons I'm coming And don't ask me who I like in the game right now, I'll say no comments YUNG
