

Marjorie Fair, Hold On To You

I hold on to you
it's all I can do my love
you are stronger than me
from what I can see my love

I think I'm going out of my mind
If it's not already gone by now
sad to see you're already over me
I don't want to know that now

the pain I see in your eyes
is such a surprise my love
you can't believe what I see
you're the best thing to me my love

I think I'm going out of my mind
if it's not already gone by now
sad to see you're already over me
I don't want to know that now

I hold on to you, it's all I can do
