

Martin Garrix, Love Runs Out (feat. G-Eazy & Sasha

What if our love runs out
Don't wanna let you down
You know,
What if our love runs out

Yeah, can't help but think what if
Fast forward five or six
Years and some change we end up
Mr. and Mrs. Smith
My baby with the shits
Right now it's perfect bliss

But what if one day
I woke up
And i don't feel like this
If i can't trust you
Feel disconnected in front of you
I just realized
Been a couple days since fucked you
Somethings feeling strange
I don't feel the same when i touch you
And i could feel the distance
I Wonder if i still love you
For real

Cause babe
I've learned my lesson
Sorr, for second quessing
But i've just got a question

What if our love runs out
What if our love runs out
What if one day we wake up
And don't feel like we do now
What if our love runs out
What if our love runs out
What if one day we wake up
And we both want something else
What if our love runs out
