

Martin Solveig, Do It Right (ft. Tkay Maida)

What you're doing with my head
I may let you go ahead
But you gotta do it right, right, right

Show me that you make a spin
If I let you try again
But you gotta do it right, right, right

Come over
Let's get together
Come on
Turn the lights down
Se there's no rewind now
Let's cross the line
Show me yours
I'll show you mine

Let's do it right all night
Do it right
all night, all night
