

# Martina McBride, Do What You Do

Slow down that's right  
Give it all you got  
Yeah you got the right stuff  
Kick back let go  
Trust yourself you know  
Yeah what you got is good enough

Hey don't give 'em what they think they want  
'Cause they don't have a clue  
Yeah if you really wanna give 'em something different  
Something to sink their teeth into  
Well baby then you just do what you do

All eyes were on Alice  
They laughed and made her cry  
Yeah she was a little different  
But hey you know what  
She found a way to fly  
You see Alice she got her strength from the inside

Hey don't give 'em what they think they want  
'Cause they don't have a clue  
Yeah if you really wanna give 'em something different  
Something to sink their teeth into  
Well baby then you just do what you do

The cost of living just went up today  
As soon as you started doing things your way  
You'll be shakin' 'em off your coattails from every side  
They'll be trying to catch that free ride

Hey don't give 'em what they think they want  
'Cause they don't have a clue  
Yeah if you really wanna give 'em something different  
Something to sink their teeth into  
Well baby then you just do what you do  
Do what you do  
Do what you do
