Mastercard, Merry Go Round

i can see it clearly, almost lost me nearly
e was such a mess
and I know but broke him
now I get my token to my freedom again
I say you yesterday, you look happier, I could see
so let's not be bitter about it
let us both be free

look at me feet on the ground won't ride on your merry go round stepping off, I am leaving you behind watch my back as I turn around won't ride on your merry go round stepping off, I am leaving you behind

now I am reaching higher relighting my desire for brighter days you better catch 'em quickly life moves past so swiftly so just jump ahead

look at me feet on the ground won't ride on your merry go round stepping off, I am leaving you behind watch my back as I turn around won't ride on your merry go round on your merry go round

look at me feet on the ground I won't ride on your merry go round

look at me feet on the ground won't ride on your merry go round stepping off, I am leaving you behind watch my back as I turn around won't ride on your merry go round stepping off, I am leaving you behind
