

Masterplan, The Chance (Halloween cover)

We're living in a constant fight
Too much pressure everywhere
And all around

Don't let it pull you down
Hold on tight
Cling to your dreams

Don't you depend on someone else
Think for yourself and win the race

The chance you got comes never twice
Do your best, (and) do it right

Time will come but don't you hide
You are on your way

You're led by God but you're not a pawn
Should live your life, don't care 'bout any scorn

Just let them fool around
No need to cry
Don't give up

Try to be as smart as you can be
I know you own so much ability
