This is for the ladies  
The crazy honey babies  
The cuties with the booties  
Smoking dookie at the mini mall

Arby's sauce on my lapel  
I said I'm chilling at the perfume counter  
So I can smell  
Their intoxicating breezes  
(They always come in seasons)?  
Have me over for dinner  
And let me eat your feces  
I go to pieces cause I fall in love five times a day  
My name is mc (bad for you like that way KOA)?

mc chris #2000  
(With the ladies so crowd please shout it)?  
You can't help it if you find him attractive  
'Cause mc chris is the motherfucking (batshit)?

#1 fuck that  
I'm # in 10  
As in "In like Flint"  
So please let me begin  
Obviously I'm mc  
Word, I deserve it  
This for the many cuties that let me berserk it  
I work the circuit  
From XLR to RCA  
I get up on the mic about every day  
All the way from Santa Fe over to the Ukraine  
I get more insane than my boy Billy Zane  
On the Titanic  
Leaving all the ladies in the Leonardo panic  
(Got a manic)? but i turn it like it's static  
Lock 'em upstairs just like "Flowers in the Attic";  
Like she was Kimmy Gibbler & I was Bob Saget word up

Amazing  
(The act of body painting)?  
I get up on the mic  
Till I leave all the ladies fainting  
In my life it's always raining  
Yo, it's not cats and pups  
It's weave-wearing hos with big ass butts

We've been known to rock  
We've been known to party  
We've been known to strip  
And shake our bodies

Like our show?  
Like our sound?  
Muthafucka put your money down
