

MEDUZA, Paradise (ft. Dermot Kennedy)

In the fading light
Hearts collide
Shows dance in the distance
Something just ain't right
I am cold inside
Help me find what I'm missing

We're all scared to fly
Still, we try
Learn to be brave
See the other side
Won't you lead me there?
Have no fear
Close your eyes
Find paradise

My /3x
There's a thousand miles between you and I
My /3x
Just a thousand miles between me and paradise

My /3x
There's a thousand miles between you and I
My /3x
Just a thousand miles between me and paradise

Oh (Paradise) oh
My /3x
Oh (Paradise) oh
My /3x
Oh (Paradise) oh
My /3x
Just a thousand miles between me and paradise
