

# Metronomy, The Upsetter

I've gotta beam a message to you  
Straight from the satellite  
'Cause girl we're meant to be together  
Yeah girl we're meant to be together  
And back out on the Riviera  
It got so cold at night  
I've gotta beam a message to you  
I've gotta beam a message to you  
I've gotta beam a message to you

I should've known from the call that you let out  
You're not alone and you're still in love  
And everyone says that I'm the upsetter  
But I'm alone and we're so in love  
I've got it bad and now this heart beats black  
So black  
Oh yeah

Reliving 1992 here  
Playing Sleeping Satellite  
Playing Prince and Deacon Blue yeah  
Playing I Will Always Love You yeah  
But when I think of me and you  
Get shivers down my spine  
I've gotta beam a message to you  
I've gotta beam a message to you

I should've known from the call that you let out  
You're not alone and you're still in love  
And everyone says that I'm the upsetter  
But I'm alone and we're so in love  
I've got it bad and now this heart beats black  
So black  
Oh yeah

I should've known from the call that you let out  
You're not alone and you're still in love  
And everyone says that I'm the upsetter  
But I'm alone and we're so in love  
I've got it bad and now this heart beats black  
So black  
Oh yeah

You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
Why you giving me a hard time tonight?

You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
You're really giving me a hard time tonight  
Why you giving me a hard time tonight?

You're really giving me a hard time tonight
