

Michael Bolton, Love Is The Power

Tell me how long, can we go on this way
Just to be strong
We talk through the night
But never reach the other side
We fill our lives
With endless words, an aimless search

When all that we need, we hold within our hearts
When will we find, our way out of the dark

CHORUS

We know that
Love is the power, love is the key
Love is the reason, reason to believe
Love is the answer, when we will see
Love is the power, love is the power, we need

Look at our lives, look at this world we've made
We close our eyes, and oh the price we pay
We reach for the sky
But never get beyond our pride

Fighting like fools
This faithless game, is such a shame

When all that we need we hold within our hands
Oh when will we find the faith to understand

CHORUS

All that we need we hold within our hands
Oh when will we find the faith to understand

CHORUS
