

migos & marshmello, danger

tryna get demons up outta me
turn to a beast, eat your arteries
deceasing opponents so properly
unleashing the thoughts are what got to me
we come to take this shit over
foot on the gas, hear the motor
switching my thoughts, I'm bipolar
I stare in the eyes of a cobra

say you want smoke, come get it
you wanna play dumb
I'm wit it
I'm about to take over the city
I came with my committee
gang with ot
came for a bag and the profit
looking for the wave when we got it
nigga, you ain't scare nobody
bop-bop, that's a whole body

on the dark side
if you keep cold
it's a cold case
in my right mind
I can write rhymes
till I road rage
still a ten
I'm a left wrist in te old place
on my knees
begging God tat he got me through the pain

danger, danger
I don't; fit with the strangers
believer, believer
I can take out all the evil
empowerment to all my people\
I can prove to you I'm a leader
run through the money, no Visa
Forgive me cause my life's illegal

searching for the bag and the prie
on a mission looking for them bad guys
came with no player but my head, I'm, real wise
look at this eyes
wide , think he traumatized
take me as a joke
I'ma hang them on the road
cause where I'm from
we don't play like that on our side
better not freaking cause we know you're gon' choke
talk behind my back
but you shots backfired

I know you tried but you never could survive
I see the fear that's in your eyes
I'm like Ford, they tryna hide
they criticize in disguise
they know I can only tell the truth
they know what you do is tell lies
I'm about to take over the city
tell me you just ith it
cause I know my squad gon' ride

on the dark side

if you keep cold
it's a cold case
in my right mind
I can write rhymes
till I road rage
still a ten
I'm a left wrist in te old place
on my knees
begging God tat he got me through the pain

danger, danger
I don't; fit with the strangers
believer, believer
I can take out all the evil
empowerment to all my people\
I can prove to you I'm a leader
run through the money, no Visa
Forgive me cause my life's illegal
