

# Milky Chance, Like A Clown

I feel like a clown  
Wanna make you laugh  
Never wanna drag you down  
Wanna lift you up  
Never wanna make you cry  
Wanna make you feel  
Let's get high  
My feet are off the ground  
My head is somewhere else  
And my heart is way too loud  
Are you that kinda love  
Are you gonna freak me out  
I guess I fell in love  
With your ability

Let me be your clown  
Drive you all around  
Take you outta town  
We can fly away  
Our cloud is number 9  
Never coming down  
We never coming down

Do me, do me  
You do me good  
You do me good

I feel like a clown  
Never wanna drag you down  
Never wanna make you cry  
Baby let's get high

I feel like a clown  
Wanna make you laugh  
Never wanna drag you down  
Wanna lift you up  
Never wanna make you cry  
Wanna make you feel  
Let's get high  
My feet are off the ground  
My head is somewhere else  
And my heart is way too loud  
Are you that kinda love  
Are you gonna freak me out  
I guess I fell in love  
With your ability

You do me good  
You do me good  
Do me, do me

You do me good  
You do me good

Baby let's get high
