

# Mobb Deep, Came Up

(Havoc)

Bang your head, squeeze the four to this  
Get bent, bag a whore to this - good girl, metamorphise it  
That's you? Oh my bad, little shorty a freak  
Now nigga come up off of it  
I don't fight over hoes but I kill for my dough  
That's right nigga know where my morals is  
We can take it to the street, homey I don't give a fuck  
Corporate, nigga shoot up them offices  
Either step your game up or forfeit  
Nigga never had it, I don't know how he lost it  
Keep, fuckin with Hav', have them ladies on your block  
lookin at you on the floor like, "poor kid";  
Cause I bring it to the doorstep, 'ready know the layout  
Think, not that, and some more shit  
It's called backshot talk, you don't know nuttin 'bout it  
Cause you can no longer hit it

(Chorus: Mobb Deep - repeat 2X)

Niggaz better step they game up (step it up)  
Bitches better step that game up (step it up)  
I don't give a fuck and you know I don't give a fuck  
Niggaz just made cause I came up

(Prodigy)

Aiyyo yo  
If songs is ammo, then we got endless bullets  
Take you to war with rap and you definitely losin  
Our chorus is like a 50 cal slug  
One verse is like a +Cannonball+, +RUN+ - too late you threw it  
These beats is like landmines, one step KABOOM  
It's body parts all over the room 'n shit  
Albums is like time bombs, our shits blow up  
It's chemical warfare, we spread through the hood son  
And attack the nervous system  
Make niggaz bop they head and turn that shit up  
Make the ladies panties wet, you know we get 'em  
hot and bothered, girl I have that oyster drippin  
On stage flippin, catch us on tour  
Slowly but surely takin over the world  
And come back home with paper in colors you never seen  
But at the money exchange, it all turn green

(Chorus)

(Outro)

Woo! Oh man! Shit  
Remember this? (No doubt, no doubt)  
(That's what the fuck I'm talkin about)

"The bad has been playin"  
"That song all night"  
"And now is the time baby.."  
.. to turn out your lights  
A rap for you faggot-ass niggaz  
(Yo son, c'mon man)
