Is you against me or is you for me

Girl don't get mad get even..

[Chorus]

[Young Buck]

Don't hurt nobody when you move that thang
You a make a nigga jus' lose his brain
When you make that ass clap and swing your hips
Put your head in my lap then lick your lips
Come on dip baby dip, yeah I'm about my pimp
With a whole lotta ice twenty-fours on my whip
You can all take a trip the after party
Thirty two room mansion and ten garages
Make a home flick, how them real minages
So tell your girls it's just me and my partners
We don't throw dollaz we start with twenty's
And there's more where that came from, come get with
It, yeah..

[Chorus]

[Prodigy]

Yo yo..
I just wanna get you hot and wet
I'm so seductive I make 'um fiend for the sex
I just wanna stroke your brain
For the first half hour then I smoke your thang
This is exclusive sex we a star couple
On the lee-low though we too much trouble
And your friend's is hot, and my friend's is the shit
We can have our own private party at the crib
The haze the licks, your legs can sit
On top of my shoulders while I'm goin' in
Yeah I talk dirty and we jus' met
But you feelin' the vibe you gotta admit..

[Chorus]
