

Mr. Big, Electrified

Light me up,
'Cause the night is only halfway through
I'd love to make some trouble with you
Flick my switch, smack my lips, let's go
I gotta fuse that's abused
And it's ready to blow

I start to slip into anticipation,
A twisted fascination

I'm in over my head,
'Cause you're outta your mind
You've got me electrified
Shock me once,
Shock me twice

You've got me electrified,
Oh shock me!

It might be wrong,
Yeah! It might be a big mistake

That's a charge in my heart
That I'm willing to take

Slow your motor down,
Hey you know I've got to rewind

I need the twenty minutes
Back to the start of the line

I slip and fall into anticipation,
A twisted fascination

I'm over my head,
'Cause you're outta your mind
You've got me electrified
Every little thing and all the time
You've got me electrified
Shock me once. Shock me twice
You've got me electrified

Repeat last chorus
