Muse, Liquid State

Take me for a ride
Break me up and steal what's left inside
And hope and pray inequity has died
Sigh enough to stop

I'm already ???
Bring me peace and wash away my dirt
Spin me 'round and help me to divert
Walk into the light

Warm my heart tonight
And hold my head up high
And help me to survive!

Kick me when I'm down
Feed me poison
Fill me 'til I drown
Wake me up before I get pushed out
And fall into the night

Warm my heart tonight
And hold my head up high
And help me to survive!
