

# My Life With The Thrill Kill Kult, A Continental Tou

the city lights undress us  
let's bless the bed we lie on  
desire swells  
with a continental touch  
eat up my world dissolvable body  
your meat is the world  
i need nobody  
journey to bondage  
fall prey to the whip  
goddess of mayhem  
the lust mistress trip  
punish me gently  
til i lose my obsession  
torture me slowly  
til i break down and cry  
you murder my mind  
with knives thrown in anger  
ravish my body  
sick til i'm dry  
sex revelations for the pill-crazed angel  
eyes so big  
and so black  
and so bad  
no reservations for the blue ice virgin  
you're the best thing  
you could ever have  
the city lights undress us  
let's bless the bed we lie on  
desire swells  
with a continental touch
