

# My Life With The Thrill Kill Kult, Sexplosion!

sex  
sex is perverted and sick  
come with me  
share the magic  
live the dream  
let's go down to groovie street  
and catch the scene  
we'll lose ourselves  
get our kicks  
embrace the beat  
forget what's real  
and burn out on a luv so sweet  
fever's got me walking blind  
i cannot see  
i've lost my mind  
i like to watch the way you walk  
i live to hear the words you talk  
i'd love to know the things you do  
when no one's there to spy on you  
i want to crawl inside your head  
to kiss your mind and lips of red  
i dig the things you do to me  
you've lit the fire to set me free  
oh baby  
underneath hot white light  
give a scream  
take us up into the sky  
and sets us free  
we'll lose ourselves  
get our kicks  
embrace the beat  
forget what's real  
and burn out on a luv so sweet  
take all you need and leave the rest  
now follow me to take the best
