

# Mya, If You Died I Wouldn't Cry 'cause You Neve

Uhmm

Why you hurt me so bad?

We started out so perfect

Something God could only create

A union of both you and me on this special day

Never once did I take for granted

That you've been hurt before

So you treated me like a lady and even more

So what I can't understand

Why you brought the storms into my life

Tell me why

You destroyed every part of me

Never once a beautiful lady

That you showered with your love

Must live with the heart that bleeds

CHORUS:

I hope you never have to come this way again

You used to be my lover and friend

So please don't take offense

When I say what I have to say

Cause if you died I wouldn't cry cause you never loved me anyway

Promises made secrets told

Late nights spent in ecstasy

We made love in a bed of roses for the universe to see

There was no holding back from each other

Both of our minds were free

We never wasted time apart

Boy it seems like eternity

So what I can't understand

Why you brought this pain into my life

Oh tell me why

I gave you a reason to live and you used my lovin babe

So go on by yourself

To survive it alone

You know you can't come back home

CHORUS

How could this be

After all the love you said we shared

You turned around on me

Boy you know you were my heart and soul

But I can't give in I gotta let you go

Together forever that's what we both said

I didn't know that life could be so unfair

CHORUS with variations:

So please don't take offense when I say what I have to say

I hope you die

I hope you die

Cause you never loved me anyway

I hope you never have to come this way again (you never, never, never, never,  
never, never, never, never)

You used to be my lover and my friend (you used to be my best friend)

You can get struck by lightning washed away by the sea

But notify you just don't bring it back to me

Cause if you died I wouldn't cry cause you never loved me anyway
