

Mya, Step Back

All I want is a little respect
All I need is a little respect

Oh
Ooh...ooh...ooh...ooh...ooh...ooh...

Have you ever had a girl to call up your man
Better tell her step back, step back
And she claimin' that your man is her man
Gonna get her with take that

But you gotta act right and not let it out now
I'mma not let that affect us
But if she keep disrespectin' I might just
Shoot at her with the right to strike her

Yeah, I'm up out of these heels
Take and pull my hair back
I know I need to chill
All I want is little respect (Respect)
Ladies know how it feels (Oh, oh)
When another girl violates that (That's right)
Knowin' it's my man, y'all

You better tell that girl to step
Step back, step back, step back, step back
Tell that girl to step
Step back, step back, step back, step back

Didn't know them type of chicks that walked by
Better tell her keep on packin'
Twist to the side to catch your man's eye
Turn around to see if he watchin'

Those them type of girls you set straight
If you let 'em they will keep hopin'
Better shut her down for it's too late
Throw her s***, don't want my backups

Yeah, I'm up out of these heels
Take and pull my hair back (Her hair back)
I know I need to chill
All I want is little respect (Respect)
Ladies know how it feels (All my ladies know how it feels)
When another girl violates that
Knowin' it's my man, y'all

You better tell that girl to step
I am not the one to be played with
Tell that girl to step
I ain't got no time for the bulls***

You should learn some respect (Think you need to learn some respect)
'Cause if a girl came talkin' your man you wouldn't like that (Oh, mmm, mmm)
I'm not one (I'm not one) to go and start fight (Go and start fights, I'm not the type)
You gotta cop your own 'cause this one is mine

Yeah, I'm up out of these heels

Take and pull my hair back
I know I need to chill
All I want is little respect (Some respect)
Ladies know how it feels (Hey...hey...hey...)
When another girl violates that (What-what)
Knowin' it's my man, y'all

You better tell that girl to step

I'm up out of these heels
Take and pull my hair back
I know I need to chill
All I want is little respect (All I want is little respect)
Ladies know how it feels
When another girl violates that (Oh)
Knowin' it's my man, y'all

You better tell that girl to step (All I want is a little respect)
Step back, step back, step back, step back
Tell that girl to step (All I need is a little respect)
Step back, step back, step back, step back

You better tell that girl to step (All I want is a little respect)
Step back, step back, step back, step back
You better tell that girl to step (All I need is a little respect)
Step back, step back, step back, step back

You better tell that girl to step
