

Mydy, Red Flag Parade

You may know her name
Been drawn into her games
We've been there, done that
Trust me when I say
She's a red flag parade
And we're her marching band

A different kind of potion
She's sweet but she is poison
She's deeper than the ocean
My love's without emotion
Not saying she's a witch
But baby she's a b...
She's like a big explosion
She'll make you feel chosen
Get trapped into devotion
And then she leaves you broken
Not saying she's a witch
But baby she's a b...

Poison, poison, poison

It's in her DNA
She always gets away
We've been there, done that
Trust me when I say
She's a red flag parade
And we're her marching band

A different kind of potion
She's sweet but she is poison
She's deeper than the ocean
My love's without emotion
Not saying she's a witch
But baby she's a b...
She's like a big explosion
She'll make you feel chosen
Get trapped into devotion
And then she leaves you broken
Not saying she's a witch
But baby she's a b...

(Poison) She's the magic
(Poison) She's the magic
(Poison) She's the magic
(Poison) She's the magic
(Poison) She's the magic
(Poison) She's the magic
Poison
