## Nadia Ali, At The End

When you're away I feel I'm empty I lose my mind But when you're around I take for granted Most of our time Honey you say that I'm cold And sometimes I'm out of control Baby you know how I am, at the end You were always my man I don't mean to, when I hurt you But I need you, I assure you Just let me be, when I'm crazy At the end you're, still my only At the end, at the end, at the end Right when you're gone I really miss you You got my heart But when you come back I just won't kiss you And it tears you apart Honey, I do make mistakes Believe me, it's better this way Baby, I'm true and I'm real I'm giving you all that I feel Repeat Chorus Sweetie I'm trying my best To give you the most and no less Darling I'm true and I'm real I'm giving you all that I feel Repeat Chorus
