

# nadiia, Save me

1. I'm not your toy or nothing else  
I just want to use you  
As if you were my slave  
And all night I feel your proud taste  
Cause your skin of gold  
is like more than embrace

Your mother will be mad  
But boy I want to start  
You're my paradise  
And you probably will be hurt  
But boy I want to try  
You're my paradise

Save me my baby  
and give me yourself  
My body feels fine  
when you give me some space  
And all that I want is  
your pretty two hands  
that always can touch me when  
I don't know who I am

2. Tell me about your dumb and pretty girl  
She spends all your money,  
has fun with boys  
You're stupid to love her  
she gives you some hate  
I'll give you what you want  
I'm on my way

Your mother will be mad  
But boy I want to start  
You're my paradise  
And you probably will be hurt  
But boy I want to try  
You're my paradise

I could give you what you want  
what you want

Save me my baby and give me yourself  
My body feels fine when you give me some space  
And All that I want is your pretty two hands that always can touch me when  
I don't know who I am

Save me my baby and give me yourself  
My body feels fine when you give me some space  
And All that I want is your pretty two hands that always can touch me when  
I don't know who I am.
