

# Najwajean, Like Those Roses

exploding stars and striking comets  
soon it's gonna be your time  
you don't need to scare nobody  
soon it's gonna be your time  
i like to feel those roses in my skin  
i like to feel those roses,  
you know what i mean (x2)  
i like to feel all those roses in my skin (x2)  
yellow bells, blue blue sky  
soon it's gonna be your time  
you don't need to fright nobody  
soon it's gonna be your time  
if you wanna be great stip  
look into your empty eyes  
exploding starless, seeking comets  
soon it's gonna be your time  
i like to feel those roses in my skin  
i like to feel those roses,  
you know what i mean (x2)  
i like to feel all those roses in my skin (x2)  
i like to feel those roses  
i like to feel those roses
