

# Natalia Nykiel, Bye, Bye

You made me feel  
Just like an option  
I'm tied up  
On some destruction  
Some other girl  
You met while you were with me then

If there's something you should know  
About me  
About me  
About me

There's no such price from you  
That I need  
That I need

How does it feel  
When your love is a thrill  
I was holding you back  
Now I'm saying goodbye

How does it feel  
When her love isn't real  
You get caught in her lies  
Now I'm saying goodbye  
Goodbye

How does it feel  
When your love is a thrill  
I was holding you back  
Now I'm saying goodbye

How does it feel  
When her love isn't real  
You get caught in her lies  
Now I'm saying goodbye  
Goodbye
