Nathan Sykes, Over And Over Again (feat. Ariana

[Nathan Sykes:] From the way you smile To the way you look You capture me Unlike no other From the first hello Yeah, that's all it took And certainly We had each other And I won't leave you Always be true One plus one, two for life Over and over again Don't ever think I need more I've got the one to live for No one else will do I'm telling you Just put your heart in my hands I promise it won't get broken We'll never forget this moment It will stay brand new 'Cause I'll love you Over and over again Over and over again

[Ariana Grande:]
From the heat of night
To the break of day
I'll keep you safe
And hold you forever
And the sparks will fly
They will never fade
'Cause every day gets better and better
And I won't leave you
I'll always be true
One plus one, two for life

[Ariana Grande & Nathan Sykes] Over and over again So don't ever think I need more I've got the one to live for...
