Nazareth, Can't Shake Those Shakes

Blind in my one good eye
My mind just won reply
Somethin?from way down south
Kinda formin?a dust in my mouth
Lookin?for a place to hide
Lookin?for a space to die
Rattlin?like an old tin can
I cruisin?like a laundry van
hot ?cold fever down to my knees
Wearin?out all of my rosary beads

Can shake those shakes Can?t shake those shakes no more Can shake those shakes Feels like I dyin?when I already dead

Date with my medicine man
He got the remedies I understand
Gotta find the price to pay
Gonna send me on my way
Gotta desperate need, gotta feed the fire
I got a chemical love and a burned out desire

Can shake those shakes no more Can shake those shakes no more Can shake those shakes, eels like i dyin?When I already dead, I dead.

Don care for sentiment, don even pay my rent Got enough bad habits to blame Got enough of them to keep me sane Losin?altitude in this neighborhood Can break the fall, though il know that I should

Can shake those shakes
