

# Nazareth, Cover Your Heart

Another day alone, another pain to hide  
It's gettin' hard to hold, it's hurtin' deep inside  
Livin' for no-one, given no space to run  
There's gotta be someone you gotta keep holdin' on

It wasn't meant to last, you weren't meant to fall  
And all the photographs you want to burn them all  
But goin' down easy isn't so crazy now  
Nobody needs you but don't let it get you down

Cover your heart  
Don't let anyone's lovin' get a hold of you  
Cover your heart  
Cause it never does nothin' it's supposed to do

You used to have it all there all a love could be  
But now the dreams you shared are just a memory  
For all the wrong reasons you want it all, even now  
Caught on the rebound turnin' you inside out

Cover your heart  
Don't let anyone's lovin' get a hold of you  
Cover your heart  
Cause it never does nothin' it's supposed to do

Cover your heart

For all the wrong reasons you want it all, even now  
Caught on the rebound turnin' you inside out

Cover your heart  
Cover your heart
