

Nazareth, Donna - Get Off That Crack

Donna has a nine year old kid
In another months time she's expecting twins
She says she can quit anytime she likes
But I know she's on a mission tonight
Donna get off that crack says the sign on the third floor flat
Donna get off that crack just say no get your life back
Don't pay no bills don't pay the rent
But you don't forget where the money went
And who will you turn to when the money's all gone
You'll wonder why, why you were born
Donna get off that crack says the sign on the third floor flat
Donna get off that crack just say no get your life back
She's down on the dealing floor
She just wants to do one more
One more time and then she'll quit
One more dance just one more hit

Remember frank he cut a dash
So much style so much class
Blown away for the coat on his back
The kid that did it sold his coat for crack
Donna get off that crack says the sign on the third floor flat
Donna get off that crack just say no get your life back
She's down on the dealing floor
She just wants to do one more
One more time and then she'll quit
One more dance just one more hit
Donna get off that crack says the sign on the third floor flat
Donna get off that crack just say no get your life back
